From the Presidents Mic!

QST! QST! de WA4ZXV, Norm Schklar

January 2008 Wow!

Inside this issue:

From the President's Mic	1	TechFest is just around the corner. It's on January 12 th for those of you that haven't been keeping up. Be sure you've let David (KA4KKF) know that you are available to help, and if you are demonstrating, be sure he has you on the list. Most of the plans are in their final stages now. Be sure to spread the word to friends and family because this is a great means of explaining what we do in amateur radio.
Calendar	2	Elections are in February, so we'll be taking nominations at the January meeting. If you are interested in an office or leading a committee, let me or any of the current officers know. We'll be glad to explain the duties or go over the responsibilities. It does take a whole team to keep things running. So join in.
VE Sessions and Club Meetings	3	I'm looking out the window at a wet and dreary weekend day. Most of us didn't think we would be glad to see such a day, but the precipitation is more than welcome. I don't know how many puddles it takes to raise the lakes level, but I'm seeing plenty of them from here. Usually I'd have some antenna work that needed to be done on a day like this. But, not today. I'll just keep dry the best I can, and do the best with what I already have in the air. My backyard is a real spider web. I have an 80 meter doublet, 40 meter G5RV, 10 meter dipole, 2 meter beam, 440 beam, 6 meter beam and an X pattern NVIS antenna for 80 and 40 meters up about 7 ft reaching from neighbors tree on the left to neighbors tree on the right. I have not reinstalled the 5 band hf beam that was knocked over a couple years past.
Meeting Minutes	4	
ARRL NEWS	5	
INFO	6	
More INFO	7	Many of you are new to Amateur Radio. Be sure to bring your questions about rigs, procedures, repeaters, operating and how to have fun. And don't hesitate to ask them. There is someone in the room that will give you an answer. If you don't want to ask the group, just find me or any of the officers, and we'll point you to the folks that have some input. We try to be sensitive to new members and new hams, but it's easy for us to get off track or bogged down in the same ole stuff. It's not our intentions to be standoffish or closed mouthed, it just happens. When we say things like "just like last year", ask what we did last year. We need you and your input just as much as you need us, so don't be bashful.
Crew 73	8	
Apparel Form	9	
Membership Form	10	Kids Day is January 8 th . With TechFest and the January meeting, we haven't scheduled any club activities, but this doesn't mean you can't invite neighborhood children to participate at your shack, or get on the air and help those that are demonstrating Amateur Radio by providing a contact.
Sponsors	11	

I hope to see you at out next meeting on January 8th.
73 and hope to see you on the air soon.
Norm

The GARZETTE

The GARZETTE is the official monthly organ of the Gwinnett Amateur Radio Society serving its members and other persons interested in the advancement of the amateur radio art.

Original articles, art, and photos are invited and encouraged. Previously copyrighted submissions cannot be accepted for reprinting unless permission from the appropriate publisher is provided in writing along with the information being submitted. If reprints are from publications allowing their unrestricted use, please include a copy of the printed permission contained in the publication.

If possible, bring your articles to the monthly meeting in Microsoft Word format or email to ka4kkf@arrl.net. Artwork can be accepted in most any graphics format and can be submitted via email to the same address. Alternate means of submittal can be arranged when necessary. In keeping with the amateur radio spirit, permission is hereby granted for the reproduction of *The GARZETTE* articles by other amateur radio club newsletters provided that proper credit is given to the individual author and to *The GARZETTE*.

GARS Recurring Calendar

- Monthly club meeting is the 2nd Tuesday of the month at 7:30 PM. Check the Web Site for Location.
- Every Monday at 8 PM local time: GARS Want, Swap, Sell, and Information Net on the GARS 2 meter repeater
- Every Wednesday at 9 PM local time: GARS 6 meter net on the GARS 6 meter repeater
- Every Saturday at 7:30 AM local time: GARS Weekly Family Breakfast, Golden Corral Restaurant, Riverside Drive, Lawrenceville
- 20th of each month: Deadline for submittal of articles for the following month's GARZETTE

The GARZETTE is published each month with the assistance of Hal Manning, who prints the news letter. Rick Patchin, KD4RFK does the final production work on *The GARZETTE* by folding & labeling. Bill Cherepy, WB4WTN, stamps and gets the end product to the Post Office each month. Norm Schklar, wa4zxv, manages email delivery. Many thanks to each of them and all article contributors.

Deadline for submissions is the 20th of each month for inclusion in the following month's issue.

For any additional information contact: Newsletter Editor:

David Adcock ka4kkf
(770-271-9398)
ka4kkf@arrl.net

All correspondence relating to articles posted in *The GARZETTE* or for information concerning advertising rates should be directed to the following address:

November 2007 GARS General Meeting

November 13, 2007

The president, Norm Schklar, WA4ZXV, called the meeting to order at 7:30 and announced that 27 people were at the Liburn Pizza tonight.

Veterans were recognized in honor of Veterans Day.

First time guests were recognized.

Introductions of those present were made.

December 7, 2007 is the date for the GARS Holiday party – sign up sheet was passed around.

Dave Bruse, W4DTR, Program Manager, introduced the mini program – David Adcock, KA4KKF, discussed TechFest and the need for volunteers to help.

- a. Andrea Hartlage, KG4IUM, and Brittany Hancock, KI4WNY, gave a presentation on the youth lounge at the Alford Memorial Hamfest.
- b. The scheduled program on QRP has been rescheduled to February, 2008.

Stan Edwards, WA4DYD, gave a very interesting program on Radio Frequency Propagation.

Break

The 6 meter SSB net continues to meet on Wednesday nights and a Youth Net meets on Saturdays.

Amy Woodrick, KE4IKF, presented the treasurer's report.

Bill Cherepy, WB4WTN, membership chairperson, announced four applications for membership:

- a. Hal Collier, KI4ZLG, technician class
- b. Michael Dabney, KI4ZVY, technician class
- c. Art Forrest, K4HRG, general class
- d. Don Morris, N2FX extra class

Norm announced that investigation was being conducted into providing an internet connection on the repeater.

There was no old or new business.

Prize drawings were held.

The meeting was adjourned at 9:20.

Prepared by Randy Collins, N4COR, secretary

The first weekend of 2008 provides an opportunity to enjoy some healthy competition. The ARRL RTTY Roundup has quickly become one of the best contests using the digital modes. RTTY, PSK31, and several other digital modes are used to communicate with other amateurs all around the world. If you've wanted to try your hand at digital operating, this contest is an exciting way to get your feet wet. The ARRL RTTY Roundup is from 0000 January 5, 2008-2400 UTC January 6, 2008. Complete rules can be found on page 97 of the December QST.

Are you looking for a fun way to share Amateur Radio with your kids?

Kids Day, created by the Boring Amateur Radio Club of Oregon, takes place on Sunday, January 6, 2008. Kids get behind the microphone and make actual on-the-air contacts with other kids across the United States and Canada. Kids exchange their name, age, location and their favorite color in a contest-style event. Custom certificates are available for free download for each child that participates! Kids Day is a great way to show your family just how much fun you can have with Amateur Radio.

You can find more information on page 39 of the December 2007 QST.

==>SOLAR UPDATE

Tad "The Sun had Clos'd the Winter Day" Cook, K7RA, this week reports:

Sunspot 978 faded this week, with Tuesday, December 18 its last day visible. The average daily sunspot number dropped nearly 13 points from last week to 24.1, and the average daily solar flux (the amount of energy we receive from the Sun at a wavelength of 10.7 cm or 2800 MHz) was down over three points to 83.9. Geomagnetic indicators were up, with average daily planetary A index up three points to 7.4 and mid-latitude A index was up two points to 5.4. Unfortunately, sunspot 978 held no indication for the next sunspot cycle, because the magnetic polarity was the same as spots from cycle 23, which is now ending. It was also at mid-latitude and spots from a new cycle tend to be high latitude. But there was quite an interest this week in a high-latitude area of reverse magnetic polarity. So far this has not turned into an actual sunspot, so we wait. Sunspot numbers for December 13 through 19 were 39, 35, 39, 28, 14, 14 and 0 with a mean of 24.1. The 10.7 cm flux was 93.8, 91.9, 88.9, 81.7, 79.5, 76.8 and 74.5 with a mean of 83.9. Estimated planetary A indices were 4, 2, 1, 2, 17, 18 and 8 with a mean of 7.4. Estimated mid-latitude A indices were 3, 2, 2, 1, 12, 11 and 7, with a mean of 5.4. The predicted planetary A index for December 21-23 is 15, 10 and 8, then dropping to 5 for December 24-January 5. Geophysical Institute Prague predicts unsettled conditions December 21-22, quiet to unsettled December 23 and quiet December 24-27.

For more information concerning radio propagation, visit the ARRL Technical Information Service Propagation page <<http://www.arrl.org/tis/info/propagation.html>>. To read this week's Solar Report in its entirety, check out the W1AW Propagation Bulletin page <<http://www.arrl.org/w1aw/prop/>>.

* ARRL Continuing Education Course Registration: Registration remains open through Sunday, January 6, 2008 for these online courses beginning on Friday, January 18, 2008: Amateur Radio Emergency Communications Level 2 (EC-002); Amateur Radio Emergency Communications Level 3 (EC-003R2); Antenna Modeling (EC-004); HF Digital Communications (EC-005); VHF/UHF -- Life Beyond the Repeater (EC-008), and Radio Frequency Propagation (EC-011).

To learn more, visit the CCE Course Listing page <<http://www.arrl.org/cce/courses.html>> or contact the Continuing Education Program Coordinator <cce@arrl.org>.

* ARRL's Logbook of the World Counts More Than 150 Million Contacts:

ARRL's Logbook of the World (LoTW) -- a repository of log records submitted by users from around the world -- passed its latest milestone Wednesday, December 19 as the QSO counter clicked past 150 million contacts entered into the system, with more added since. When both participants in a contact submit matching QSO records to LoTW, the result is a QSL that can be used for ARRL award credit, such as DXCC. ARRL Membership and Volunteer Programs Manager Dave Patton, NN1N, said, "These 150 million QSOs represent a doubling of the total since July 2005 when ARRL Contributing Editor H. Ward Silver, N0AX, wrote an article for QST, 'Logbook of the World -- 75 Million QSOs Can't Be Wrong!' <<http://www.arrl.org/lotw/silver.pdf>>.

Thanks for using LoTW. We are planning to improve usability and add support for new awards in 2008." Check out Logbook of the World at <<http://www.arrl.org/lotw/>>.

* AMSAT's Straight Key Night Scheduled for January 1: AMSAT, The Amateur Radio Satellite Corporation, invites you to participate in Straight Key Night on OSCAR 2008. Participating in OSCAR Straight Key Night is fun and simple - there is no scoring and no need to send in a log. Just operate CW through any OSCAR -- using a straight hand key -- at any time between 0000 and 2400 UTC on January 1, 2008. In keeping with the friendly nature of this event, all participants are encouraged to nominate someone they worked for "Best Fist." Your nominee need not have

GARS 6 Meter net

Don't forget to check in to the 6 meter net. It is fun and you never know if the band will open up to different places.

Christmas Party 2007

The main event of the evening was the award of the "Ham of the Year" to **Doug Kregel (KB6RRX)**. A well deserved honor.

Randy Collins (N4COR) and crew decorated the social hall in high style and arranged for a very nice dinner. Eddie Foust (WD4JEM) provided some background music and a PA system.

We started out with a little meet and greet with some hors d'oeuvre, then settled in at the tables for a very nice selection topped off with a great dessert.

We took a few minutes to introduce everyone, awarded the Ham of the Year, gave away some prizes then socialized for a bit.

If you missed it, you missed a fun evening. Look for some photos on the web site in the next few days.

It was great visiting with everyone.

Happy Holidays to everyone!

See you at the January 8th meeting, and again at TechFest!

the best fist you heard, just the best of those you worked. Please send your nomination to W2RS <w2rs@amsat.org>. Those nominated will be recognized in an AMSAT News Service bulletin, and in "The AMSAT Journal." This year's event will be held in memory of Haruo (Harry) Yoneda, ex-JA1ANG, a past AMSAT Director and co-founder of JAMSAT. Harry was also a keen CW operator and a past member of the First Class CW Operators Club (FOC). - Thanks Bruce Paige, KK5DO

* Help Scientists Save the Shrikes: If you live in an eastern state and can tune away from the ham bands for a few minutes a day, you could help scientists study an endangered bird species. Every year, Eastern Loggerhead Shrikes <<http://www.shrike.ca>> leave their nesting grounds in Ontario, Canada, but fewer and fewer are returning in the spring. Researchers at the University of Guelph in Ontario have placed radio tags on 16 young shrikes. They are asking for assistance from hams and monitoring enthusiasts to find out if the tagged birds end up in Florida as expected, or somewhere else. You can help by tuning in regularly to the tag frequencies, which are between 172-173 MHz. The primary target area is Tennessee, North Carolina and states to the south. The complete frequency list is published <<http://www.homingin.com>>, along with articles to help you distinguish the pulsed tags from other signals you may hear there. Please listen now, because these Loggerhead Shrike transmitters are slowly decreasing in power output and will begin to fail in mid-February 2008. -- Joe Moell K0OV, ARRL ARDF Coordinator

CAN YOU USE A DIGITAL TV CONVERTER BOX NOW?

Reprint from the Kim Komando Show.

Chuck wrote from Lexington, TX, to ask about digital converter boxes. He wants to know if he should wait until 2009 to connect one to his television.

Before I answer your question, Chuck, let me give a little background. I'm sure many people are unfamiliar with the upcoming transition to digital broadcasts.

In February 2009, television broadcasts will go all-digital. Old-style analog televisions can't pick up the digital signals. But, with a digital converter box, you can continue to use your analog set. A recent column [explains that in greater detail](#).

Television stations are already using digital signals. So, once you get the converter box, you can begin using it.

Digital broadcasts offer several advantages. You'll probably want to start taking advantage of them now. For instance, digital broadcasts offer improved pictures. Second, some stations are multicasting. With digital broadcasts, stations can offer multiple channels instead of just one. For example, you might see 12-1, 12-2, 12-3 and so forth. These channels will be standard definition.

Most of today's antennas will work with digital television signals. If you experience problems, you may need to buy one optimized for digital. My tip will tell you [what you need to know](#). And don't forget to orient the antenna correctly. I have a [Cool Site that will help!](#)
